To Whom it May Concern

We are extremely pleased with our Big Screen advertising campaign. Not only have many of our existing customers commented on seeing it, but we have secured several new customers directly from it.

We believe it is a very cost-effective way of promoting our business to the local community and have been impressed with the service of Big Screen Advertising who helped us through the whole process to come up with an effective ad.

We are more than happy for anyone to contact us to discuss our experiences further.

Yours sincerely
